Allowable Subject Matter

Claims 1-16 allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for the indication of allowable subject matter in this case is the inclusion of: a rolling means for a drive unit having a first driving means and a second driving means to provide propulsion and steering of the driving unit where the rolling means is displaced a predetermined distance from a center axis of a rotatable support means, in combination with the other elements recited, not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
